ABOUT US

Eva2z Electric is the climate tech Electric vehicle manufacturing company with an innovative and sustainable approach. Our focus is on addressing EV industry challenges to provide quality and exceptional after-sales service.

OUR BUSINESS

January–March 2023

We have kickstarted with 160 electric 2-wheeler vehicles with a partnering company.

01

July – September 2023

Introduced specialized technical support for Delhi NCR riders, RSA and offering expert assistance for Ev technical support.

03

January 2024 – Current

Introducing our 2-wheeler EV manufacturing division, renowned for quality and exceptional after-sales service

05

02

April – June 2023

In the second phase, we grew our fleet by acquiring 200 more vehicles

04

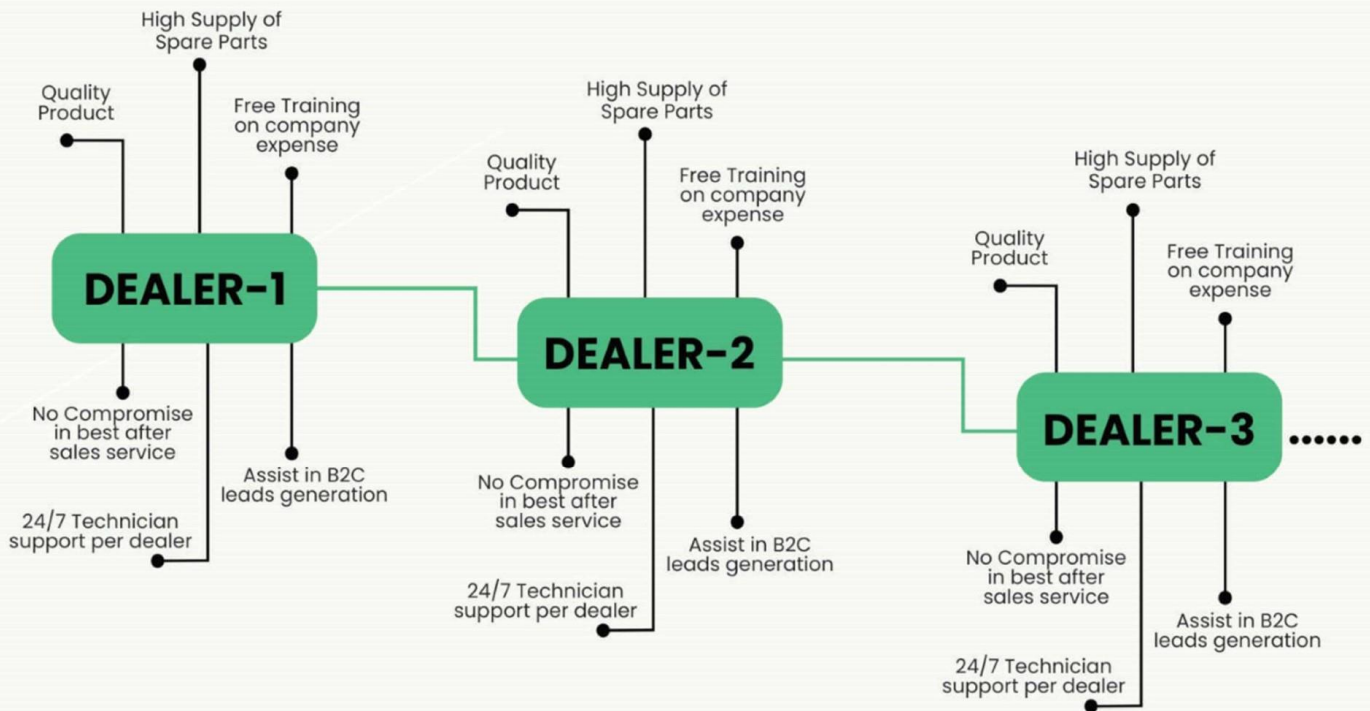

October – December

Launched our Automated Fleet Management Solutions! Simplify fleet operations with our all-in-one system.

Why we are different ?

Eva2z is known for its superior products and outstanding aftersales service.
